

4. SPEAKING

STEP 3: Write Your Own Dialogue

Use the prompts for Student A and Student B to write the dialogue.

- Greet your teammate
- Ask about your teammate's name and role
- Say where you are from
- Ask about the people in the team
- Reply if there are problems.
- End the conversation

- Say hello
- Say your name and your role
- Say where you are from and ask your classmate
- Reply with information from the team
- Ask if there are problems
- Say goodbye and finish the conversation

Class 3

Jobs in IT

In this section we are going to deal with different jobs in the IT field, and the corresponding duties for each position.

1. READING

Pre-reading Activity:

A- Think of different jobs in IT. Make a list of them.

What type of job would you like to get as you graduate or in the future?

While reading Activity:

B- Read this team introduction. Complete the descriptions *a-d* with the IT jobs in the box.

Hi! I'm Sylvia. I create usernames and passwords and I set firewalls.

This is Isabelle. Her job is to plan and design the network. And this is Andrew. His job is to make sure all of the computers work properly. Finally, Mark and Latika. Their area is data processing. We all work for the university. Our offices are in building 8.

Database analyst - IT support officer - network administrator - network architect

- a. Sylvia is a
- b. Isabelle is a
- c. Andrew is an
- d. Mark and Latika are

C- Read the text below.

Jobs in a Software Development Team

A software development team has different professionals, and each person has an important role.

A Front-end Developer creates the part of the application that users see and use. They write code for buttons, menus, and web pages. They work with designers to make the application easy to use. A Front-end Developer is responsible for creating an attractive and user-friendly interface.

A Back-end Developer works on the server side of the application. They write code that stores information, processes data, and connects the application to databases. They fix technical problems and improve the system's performance. A Back-end Developer is in charge of managing the server and the database.

A QA (Quality Assurance) Tester checks that the application works correctly before users receive it. They test new features, report bugs, and verify that developers fix the problems. They work closely with the development team to improve the quality of the software. A QA Tester is responsible for finding errors and is in charge of testing the final product.

Although these professionals have different duties, they work together every day to build reliable software.

Match each job (A–C) with the correct duties (1–12). Write the correct letter next to each duty.

Jobs

A. Front-end Developer

B. Back-end Developer

C. QA (Quality Assurance) Tester

Duties

- _____ Creates the part of the application that users see.
- _____ Tests new features before users receive them.
- _____ Works with databases.
- _____ Reports bugs to the development team.
- _____ Is responsible for creating a user-friendly interface.
- _____ Is in charge of managing the server.
- _____ Writes code for buttons, menus, and web pages.
- _____ Verifies that developers fix problems.
- _____ Processes data on the server.
- _____ Is responsible for finding errors in the software.
- _____ Works with designers.
- _____ Is in charge of testing the final product.

2. LISTENING

Listen and complete the following conversation.

Ahmed: Where ⁽¹⁾ you work, Betty?

Betty: I work for Dell in Dubai. What ⁽²⁾ you?

Ahmed: I ⁽³⁾ for HP in Budapest. What do you ⁽⁴⁾, Milo?

Milo: I'm a ⁽⁵⁾ developer. I work ⁽⁶⁾ Microsoft in Prague.

Betty: Milo, do you ⁽⁷⁾ Frida?

Milo: Yes, I do. What do you ⁽⁸⁾ to know?

Betty: Where ⁽⁹⁾ she work?

Milo: She works with ⁽¹⁰⁾ in Prague. She designs websites for ⁽¹¹⁾

Ahmed: I see. Right, let's go. The workshop starts in five minutes.

3. LANGUAGE

Present simple	Examples
We use the present simple to talk about routines and things that are permanent or happen all the time.	What do you do? I'm a programmer. What does she do? She's a developer. Where does she work? She works for IBM in Poland. She doesn't work in Estonia. Where do they work? They work for Siemens in Egypt. Do you work in IT? Yes, I do. No, I don't.

4. VOCABULARY

Look at this picture. What jobs do you know? What are the main duties for each one?

Software Developer

Security Analysts & Architects

IT Project Manager

Quality Assurance Analyst

IT Business Analyst

Business Systems Analyst

Cloud Architect

Database Analyst

Network Engineer

Data Science Specialist

5. SPEAKING

Work in pairs/ groups. Ask and answer questions about the jobs in the image in 4.

Example: A: What does a software developer do?

B: He/ She

You can also use the verb **To Be** in a common phrase to describe people's duties.

Note: As you can see, when we talk about **jobs**, we usually talk about **duties**.

So, what is **a duty**?

It's a task or action that one is required to perform as part of one's job.

Example: "the queen's official duties" - Oxford Languages

Important structures:

*A front-end developer is **in charge of** (V+ing)*

*He **is responsible for** (V+ing)*

Read these examples

- ❖ A front-end web developer is in charge of making sure that there are no errors or bugs on the front end.
- ❖ A front-end web developer is responsible for making sure that the design appears as it's supposed to across various platforms and browsers.

6. WRITING

Work in groups. Look at the image above (IT Jobs in Canada...). Write two (2) tasks for each job.

Follow this example:

*A front-end web developer **implements** web designs through coding languages like HTML, CSS, and JavaScript.*

*A front-end web developer is also **in charge of** making sure that there are no errors or bugs on the front end, as well as **making** sure that the design appears as it's supposed to across various platforms and browsers.*

Important structures:

*A front-end developer is **in charge of** (V+ing)*

*He **is responsible for** (V+ing)*

Check this web page to get some ideas:

41 Job Titles in Tech.: <https://skillcrush.com/blog/41-tech-job-titles/>

7. PRACTICE

A. Put the words in the correct order.

a. uniform / a / doesn't / wear / he =

b. animals / doesn't / work / she / with =

c. work / computers? / he / with / does =

- d. plane? / do / fly / a / they =
- e. indoors / works / Lia =

B. Complete the sentences using the Simple Present.

- a. your father in a mobile phone shop? (work). Yes,
- b. I (not/cook) dinner for my family
- c. Those hotels (be) very old.
- d. Lisa and Jey (not/write) poems
- e. My favorite show (not be) "The X factor"
- f. Steve (not/have) lunch at school.
- g. babies to university? (go). No,
- h. My sister (teach) French in my school.
- i. How often Martha (check) her email?
- j. He (not use) his cellphone when he (do) homework.

C. Write questions for the answers given (underlined phrases).

Example: Where do you work? I work in an office.

- a.? I have a salad for lunch.
- b.? No, I don't have a bike.
- c.? He gets up at 7 o'clock.
- d.? I study English twice a week
- e.? She works in a hospital.

Class 4

Schedules

In this section we are going to deal with structures used to talk about schedules.

1. LISTENING

Listen to two people at an IT conference. Complete their dialogue.
